Traditionally styled unisex bike with step through frame for ease of access

Traditional bicycle styling was the brief given to our designers for the Milan2, and they didn't let us down. The Milan2 has all the features you would expect from a traditional bicycle; mudguards, luggage rack, stand, chain guard all coupled with an elegant riding position and step through frame.

The Milan2 isn't lacking in performance either, it's 200W Intelligent brushless motor offers a top speed of 12mph without pedalling. Independent tests have shown that with gentle pedalling the Lead Acid battery will take you up to 20 miles on a single full charge.

With 26" wheels, step through frame, adjustable saddle and handlebars the Milan2 is suitable for most adult riders.

- Traditional Frame
- Elegant styling
- 15-20 Mile Powered Range
- 2 Year Warranty
